EXPERIENCE

One Sky Flight, LLC/Tuvoli.com (Boston, MA) | January 2019 - Present

UX/UI Engineer + Designer

Sole UX/UI Engineer on a rapidly growing team in a start-up culture in the private flight industry - responsible for all front-end CSS/compiled styles and layout programming of all One Sky Products. Create One Sky product workflows and design systems.

Build out new application features and resolve defects, mindful of best practices, within Angular framework and MEAN stack systems.

Build and compile CSS style guides containing reusable classes/variables/components to simplify and streamline front-end development.

Work closely with both Engineering and Design teams, as well as the Director of Product and CTO to bring the ultimate product design vision to fruition.

Optimize application screens for mobile devices and smaller screen widths, employing best practices/"mobile first" approach for responsive design and development.

Manage and maintain company's icomoon.io icon font library.

Homesite Insurance (Boston, MA) | October 2014 - January 2019

UI Designer + Front End Web Developer

Design and develop user interfaces/front end for multiple Homesite and Partner products.

Integral member of large development teams through all aspects of the Software Development Life Cycle (SDLC) using Scrum/Agile approach.

Continuous maintenance on all existing product applications/defect resolution.

Manage SDLC projects, tasks and defects through BitBucket/JIRA.

Identify/investigate issues and develop alternative solutions.

Utilize best practices to ensure lightweight and quality coded applications.

Test front end code in all applicable browsers to ensure cross-browser compatibility.

Maintain brand standards using company and partner guidelines.

J. Calnan & Associates (Quincy, MA) | May 2012 - May 2013

Senior Graphic Designer

Senior Graphic Designer for in-house marketing department responsible for all design deliverables with one Junior Marketing Assistant/Designer under management.

Designed, compiled and created company project proposals that were integral in generating over \$5 million in revenue for the company for fiscal year 2012.

Worked closely with TEAM IMPACT (internal charity) in assisting with the completion of their branding project as well as routinely designing and producing the organization's print marketing

Axon Communications Inc. (Braintree, MA) | September 2007 - April 2012

Senior Graphic Designer

Original graphic designer at start-up marketing firm; responsible for all new product design.

Built from scratch the entire original infrastructure and workflow for the creative department.

Internal liaison between Post Production, Replication & Fulfillment and Client Services teams.

Created user interfaces and graphics packages in addition to on-screen elements for all products.

Designed product logo that was featured in Med Ad News, an industry publication.

Michael Sabatini Design (Hingham, MA) | May 2007 - Present

Principle/Designer

Offering innovative solutions for brand design and web design/development, as well as bespoke design collateral.

Clients Include Farmland Consulting, Avpro Worldwide, Hub Bicycle Co. Landry's Bicycles, Rasputitsa Gravel Road Race (VT) and Hellhole Gravel Race (SC).
